Project Manager | Python Developer | System Design

Master in Computational Modeling currently pursuing a career in the **Artificial Intelligence Area.**
As a detail-oriented planner and organizer, I have cultivated my expertise in Agile methodology through a combination of academic pursuits, professional development training, extensive research, and the adept structuring of complex systems.

AWARDS: Hackathon Winner | TogetherVsVirus and Recognition for making a difference in the community (Greystone).

PROFESSIONAL EXPERIENCE

Project Manager | Scrum Master   **Nov 2021 - Present**
iTec/FURG Embrapii - Robotic Systems and Automation

- **Project Management:** Managed innovation projects lasting 6-18 months with teams of 6-12 individuals, overseeing a total value of 1,300 million Brazilian Reais. Successfully concluded one project, while two others are nearing completion, utilizing agile methodology for efficient tracking and adherence to schedule.

Python Developer Jr   **Mar 2021 - Oct 2021**
NL Informática

- **API Developer Support:** Improvement and support of databases using SQL technologies, resulting in a 20% increase in data accuracy. As an active contributor to the team, I was able to achieve a significant milestone in the improvement of the bug handling response rate by 40%.

Tutor of the Specialization Course in Data Science   **Sep 2020 - Aug 2021**
Federal University of Rio Grande – FURG

- **Data Science:** I facilitated the process of teaching data science concepts and tools to 20 students in a distance learning program. My role involved assisting in the organization of course materials and exercises related to applied data science in various subjects such as machine learning, data mining, and design systems.

EDUCATION

Master's Degree - Computational Modeling   **Aug 2019 - Jun 2022**
Federal University of Rio Grande - FURG | Brazil

Bachelor's Degree - Information Systems   **Mar 2011 - Aug 2017**
Integrated Regional University of Alto Uruguay and Missions - URI | Brazil

TECHNOLOGICAL SKILLS
• Git • Python • Recommendation systems
• Data Visualization • Scikit-learn • Pandas
• APIs • MySQL • Machine Learning • JIRA

CERTIFICATIONS
Scrum Foundation Professional Certificate | CertiProf International
DLI Certificate - Fundamentals of Deep Learning for Computer Vision | NVIDIA
